

**中國西部水泥有限公司**  
**WEST CHINA CEMENT LIMITED**

# **Corporate Presentation**

**June 2013**

# Market Overview

## ▲ Volumes

- 2Q volumes have been good with strong contributions from the Shifeng and Fuping plants. May volumes down due to rain. Now entering into slightly slower June/July seasonality.
- 2Q utilisation rates close to 90%. Stock levels down to below 50% in April but slightly higher in May. High grade cement mix trending up to over 45% in May as shipments to infrastructure kick in.
- Xi'an – Chengdu High Speed Railway: Shaanxi Province tendering now completed. WCC has won over 70% of the tender sections, supplying approx. 3m tons to the project.

## ▲ ASPs & COS

- 2Q ASPs trending up following March and April price rises. Pre-sales at lower prices mostly cleared in April.
- Pricing power remains moderate in 2Q.
- COS are stable. Coal prices continue to be favourable.

## ▲ PRC Mid-Term Notes

- Completed the issuance of RMB800m MTN for 3 years at 6.1%.
- Proceeds used to refinance short-term onshore bank loans and for general working capital.

# Shaanxi – Infrastructure Project Demand

## ▲ Southern Shaanxi Resettlement Project (陝南移民搬遷工程).

- Aims to resettle approximately 2.4 million people in Hanzhong, Ankang and Shangluo regions over the next 10 years, from 2011 to 2020. Total investment is over RMB110 billion and expected cement consumption of 12-14 million tons.
- Approximately 300,000 people have been resettled in 2012. WCC has supplied approx. 1m tons of cement to this project in 2012.
- Relocation target for 2013 is 228,000 people.

## ▲ Hanjiang-To-Weihe River Water Transfer Project (引漢濟渭工程).

- Transfer water from the south of the Qinling Mountains to the Weihe River in the north to resolve water shortage and irrigation problems in central and northern Shaanxi Province by 2020. Includes Hydro-Junctions, Pump Stations, Dams and the 98km Qinling Tunnel.

## ▲ Xi'an to Hefei Double Track Railway

- Key national coal transportation route linking NW China to Anhui Province. Total distance of 957KM of which 250KM is in Shaanxi Province passing through Weinan and Shangluo Regions.
- Tendering completed in October – WCC won 6 out of 8 Shaanxi Province sections. Expected to supply 250,000 to 300,000 tons of cement per year for next 4 years, commencing 4Q12.

## ▲ Xi'an to Chengdu High Speed Railway Passenger Line

- Total distance of 343KM within Shaanxi Province, passing through Xi'an and Hanzhong Regions, with over 85% of total distance accounted for by bridges and tunnels. Shaanxi total consumption approx 4.0 - 4.5m tons.
- Shaanxi Province tendering completed. WCC has won over 70% of the tender sections, supplying approx. 3m tons to the project.

## ▲ In addition to the above, WCC is currently supplying cement to the following projects:

- Datong-Xi'an High Speed Railway; Huang-Han-Hou Railway; Lanzhou-Chongqing Railway; Tongchuan – Huangling Highway; Ankang – Pingli Highway; Fo-Ping Leadway Project

# Prospects

## ▲ Shaanxi Demand

- The recovery in infrastructure demand in 2H12 is expected to continue into 2013. Railway construction will be an important incremental demand driver in 2013, especially in southern Shaanxi.
- The acquisitions of the Shifeng and Fuping cement plants allow WCC to become a more significant player in the Xi'an Metropolitan market, which accounts for 30-40% of total provincial demand and is mostly high grade cement. WCC expects rural development, infrastructure and Xi'an urban demand to all drive demand in 2013.
- With increased full year effective capacity of 23.7mt in 2013, WCC expects continued volume growth.

## ▲ Shaanxi Supply

- Pricing power achieved in 2012 is expected to be maintained into 2013 due to the increasingly concentrated supply side and reduction in the rate of supply growth in Shaanxi. Consolidation and capacity controls remain key themes for the cement industry.

## ▲ Xinjiang Plants Outlook

- Hotan District faces oversupply in 2013 and expect to be running plants below capacity. Focus on establishing WCC in the area in anticipation of infrastructure demand pick up later in the current Five Year Plan.

## ▲ Group Focus

- Whilst continuing to target consolidation and growth opportunities, the Group will shift its priorities in 2013 to reducing its net debt levels with a target of repayment of the USD Senior note in January 2016.

## 2012 Results Overview

# 2012 Results Highlights

## ▲ Operational

- Year-end installed capacity of 23.7 million tons (2011: 16.2 million)
- Cement sales volume of 15.0 million tons, including capitalised sales from Danfeng Line 2 (2011: 11.7 million). Additionally, 0.7mt of clinker sales (2011: 0.3mt).
- Cement ASP's of RMB238 per ton (2011: 264 per ton)

## ▲ Financial

- Gross Profit decline to RMB675.2m (2011: RMB884.4m)
- Final Dividend proposed RMB0.02 (2011: Total Dividend RMB0.0342)
- Net Gearing 69.1% (2011: 65.7%)
- Cash & cash equivalents of RMB518.8million (2011: RMB566.1million)

## ▲ Consolidation & Expansion

- Shangluo Danfeng Line 2 Plant of 1.5mt commissioned in April.
- Weinan Shifeng Plant of 2mt acquired in April.
- Weinan Fuping Plant of 2mt acquired in a new share for asset transaction from Italcementi Group in June.
- Yutian Plant, Xinjiang Province, of 2mt commissioned in August.

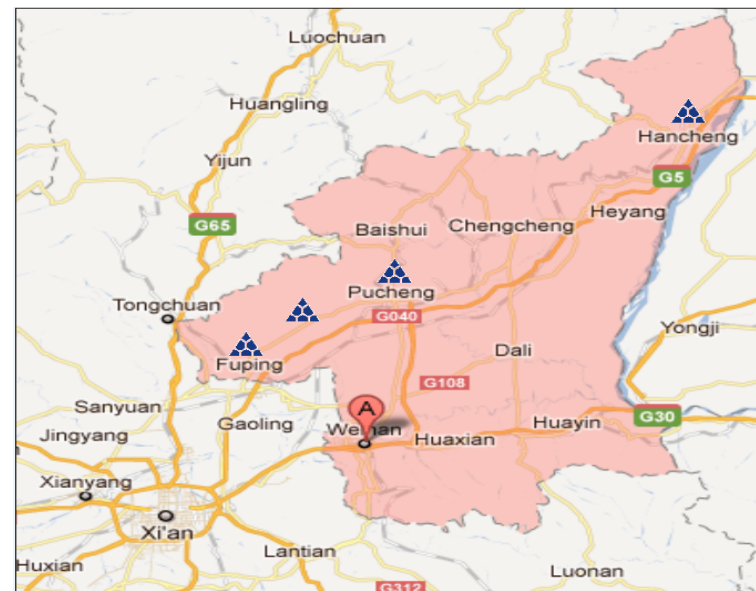

**Capacity December 2012:**  
**Shaanxi – 21.1mt**  
**Xinjiang – 2.6mt**

# Weinan Consolidation – Italcementi Cooperation

- ▲ **April 2012:** Acquired a 65% interest in the 2m ton per annum Shifeng Cement Plant in Weinan Region at a valuation of approximately RMB365 per ton of cement capacity on an EV basis.
- ▲ **June 2012:** Acquired a 100% interest in Fuping Cement from the Italcementi Group. The acquisition comprises the 2m ton Fuping Cement Plant plus a 35% interest in the Shifeng Cement Plant. The Fuping Plant was valued at approximately RMB337 per ton of cement capacity on an EV basis.
- ▲ Shifeng Cement was acquired with a combination of cash and assumed debt. The Fuping acquisition was a share for asset deal - WCC issued 284,200,000 new shares (6.25% of enlarged share capital) to Italcementi Group at HK\$2.1815, an approximate 30% premium to our share price. Italcementi have agreed to a 3 year lock up and have nominated a Non Executive Director to the WCC Board.
- ▲ These acquisitions have eliminated competition in the Weinan region and enlarged our market reach into the northern Xi'an Market. This move is a significant step in the supply consolidation process in our province, where the Top 4 producers now command over 80% of supply in the province, and our Shaanxi capacity has now reached over 21m tons.
- ▲ WCC welcomes Italcementi Group, one of the largest international cement producers with operations around the world, as a shareholder. We look forward to benefiting from Italcementi's global industry expertise and future cooperation between the two groups.

# Financial Analysis and KPIs

RMB Million (unless otherwise specified)	Ended 31 Dec 2012	Ended 31 Dec 2011	%
<b>Cement Sales Volume</b>	14.3 <sup>(1)</sup>	11.7	22.2%

Source: Digital Cement, WCC. Data includes all construction in progress.

- Xi'an is the largest cement market in the province, accounting for 30-40% of total demand.
- Baoji, Tongchuan, Weinan and Xianyang are the major areas of supply, accounting for approx. 75% of provincial output.
- WCC Core Markets are Weinan, Shangluo, Ankang and Hanzhong – areas where we command market shares of 60% to 100% of NSP capacity.
- WCC's acquisitions in Weinan increase the Group's market share in the Xi'an metropolitan area.

## Strategy

# Development Strategy

## Western Development, Core Market Strategy and New Growth Areas

### Shaanxi Development

- ▲ Expansion out of our base area of Weinan into southern Shaanxi.
- ▲ Core Market Strategy – secure resources and construct smaller plants, closer to each other in less developed areas
- ▲ Gain a dominant market position in our core markets and avoid areas of intense competition.

### Shaanxi Consolidation

- ▲ Core Markets in southern Shaanxi ensure margins superior to our regional peers.
- ▲ Follow Government objectives and industry consolidation trends. Selective acquisitions in Core Markets.
- ▲ Ensure stable cash flows and leverage Core Market advantages during the consolidation process.

### West China Consolidation

- ▲ Identify and expand into Key Development Areas in the west of China. Local market control and not provincial dominance important in this stage of consolidation.
- ▲ Focus on cement assets with superior location and pricing advantages.
- ▲ Benefit from “Western Development” & consolidation to become a regional player – 28-30m tons target.

# Appendix II: Company Development

*We target up to 28-30 million tons capacity by 2016...*

# Appendix II: Shaanxi Province – Home Market

21.1 million tons capacity

**Shaanxi's largest cement producer with market leadership in the south and east of the Province.**

- ▲ Serving the development and urbanisation needs of southern and eastern Shaanxi
- ▲ NSP Production plants in proximity to our limestone resources and markets
- ▲ Focus on both infrastructure and rural development markets
- ▲ Dominant market share in Weinan, Shangluo, Ankang and Hanzhong regions.
- ▲ Increased market share in the Xi'an Metropolitan area market through recent acquisitions in the Weinan region.

# Appendix II: Southern Xinjiang – A New Growth Market

## 2.6 million tons capacity

### Replicating our Core Market Strategy in Hotan

- ▲ Hotan region is bordered to the north by the Taklamakan Desert and to the south by the Kunlun Mountains.
- ▲ Cumulative FAI from 2006-2010 (the 11th Five-Year Plan) was RMB 31 billion. Planned FAI under the 12th Five-Year Plan (2011-2015) is over RMB 110 billion – a more than three fold increase.
- ▲ A key energy and resource supply Zone. Abundant natural gas, oil, coal and mineral resources.
- ▲ Plentiful, low cost limestone and coal supplies for cement production
- ▲ 2012 cement capacity of approx 5.5mt, of which 94% is NSP capacity.
- ▲ Current cement demand driven by transport infrastructure, hydro and water projects and urbanisation.
- ▲ WCC's near term strategic focus on pricing. Longer term focus on positioning for increased infrastructure and resource extraction development in the region.

# Appendix II: Production Facilities

Approximately 24 million tons capacity

## Production Facilities at end 2011

	Production Facilities	Annual Capacity (mt)	Commencement/ Acquisition Date
1	Weinan Pucheng Line 1 & 2	2.5	Commissioned: Line 1 Feb 2004 & Line 2: Sept 2010
