

On 27 July 2009, Shaanxi Provincial inspection group and a Standing Committee Member of Yangxian County visited Yangxian plant, the fully owned subsidiary of West China Cement Limited (“WCC”), which is under construction. The plant manager Mr. Wang Fayin and relative leaders warmly welcomed the inspection group.

During the visit, Mr. Wang gave a detailed introduction of the project progression, and the performances and achievements that have been recognized in the past months. The group hopes all staff will be overcome the bad weather and other adverse factors to ensure the plant can be successfully fired up on time and contribute to the local economic development.

At the same time, the plant manager Mr. Wang on behalf of all staff gives thanks for the provincial leader’s support and care. He also pointed out that the group will overcome all the difficulties, continue to be hard working and strive to build a high-quality and high-efficiency demonstration plant.
