

On October 15, Mr. Kong Xiangzhong, vice president and secretary of China Cement Association and other officials visited Lantian plant. They were well received by Mr. Zhang Jimin, CEO of West China Cement, Mr. Tian Zhenjun, General Manager of West China Cement's Lantian plant and other senior management at Lantian plant.

Mr. Kong and other officials at the China Cement Association praised the Lantian plant for its contribution in production and operation, environmental protection, safety measures, integrated utilization of resources, and promotion of the development of China's cement industry. They also held in high regard West China Cement's corporate structure, corporate culture and its brand influence and encouraged the Company to seize the present opportunity to enhance its competitiveness to contribute to the development of cement industry in China.
