

On October 15, Shaanxi National Tax Bureau tax assessment group for major cement enterprises visited Lantian plant for production, operation and tax payments inspection. They were warmly received by Mr. Tian Zhenjun, General Manager of Lantian plant and other senior management.

Mr. Tian presented them an introduction to production, operation and profits tax payment and showed them the plant and production line. The assessment group focused on the inspection on production, operation, profits tax payment and proposed guidelines on work. The assessment group praised the organized operation of the Lantian plant, its nice environment and its effective implementation of national tax system. He encouraged the Lantian plant to enhance plant management and technology innovation in order to further expand the company's operation.
