

The Representatives from the Standing Committee of Mianxian visited Mianxian Plant

On 26 October, the representatives from the Standing Committee of Mianxian visited West China Cement's Mianxian Plant to investigate the implementation of developing cyclic economy.

Mr. Luo Xianbo, Manager of Mianxian Plant, extended a warm welcome to them. He also gave a detailed report on the subject of "Create a new pattern of cyclic economy and promote the development of local cyclic economy" from five aspects, which are energy conservation and reduction of gas emissions, low temperature waste heat power generation, comprehensive utilization in water resources, waste recycling, etc.

The representatives fully recognized the efforts made by Mianxian Plant on widely utilization of all kinds of Industrial residue with a view to improve the local environment. Manager Luo also expressed that the company will continue to make efforts to improve local environment and make further contribution to Mianxian economic development.
