

Lantian Plant was awarded as Advanced Unit of Energy-saving in Industries

On 23 March, at the commendation meeting of energy-saving in industries of the Eleventh Five-Year Plan held by the Municipal Government of Xi'an, Lantian Plant of West China Cement Limited ("WCC") was awarded as Advanced Unit by Industry and Information Department of Xi'an.

The award represents the Government's full recognition and encouragement on WCC's substantial input and great achievement on energy conservation and circular economy development. In the meanwhile, WCC will also continue to make efforts to assure the implementation of all energy-saving norms.
