

Yutian Project of WCC Received Favorable Comments from Government Officials

The officials from various departments of Xinjiang and Tianjing have recently visited the 4500t/d Clinker Cement Production Line Project in Yutian County and made favorable comments, which has laid the groundwork for WCC's brand improvement and influence in Southern Xinjiang area.

The construction of Yutian was commenced by WCC together with Xinjing Construction-Aid Team from Tianjing in response to the Western Development Policy. Since the start of this project, the government officials have given considerable concern and assistance to the project. Also, WCC have been preparing for the trial run of the plant and striving for the early production so as to contribute to economic development of Hotan region.
