

CEO Ma Weiping Attended the Leaders Roundtable Meeting of C12+3

April 09, 2019 China Top Cement Enterprises CEO Roundtable Meeting(C12+3 Summit) was held in Shanghai which was hosted by China Cement Association, Qiao Longde, chairman of China Building Materials Federation and China Cement Association, vice chairman Kong

Xiangzhong and other leaders from different top cement enterprises attended the meeting. The topic of this meeting is eliminating backward production capacity, promoting innovation and optimizing structure, steady growth, balance of supply and demand. CEO Ma Weiping, presented the meeting on half of WCC.

Qiao Longde made an important speech, he said that China cement industry is in the process of continuous improvement and optimization, the principal contradiction of cement industry is serious overcapacity, cement industry have to construct and improve the level of technical equipment. Leaders of participating enterprises speak separately and communicate on three topics. Ma Weiping gave four suggestions on eliminate production capacity, industry innovation, intelligent manufacturing and industry self-discipline for discussion, he said that cement industry should insist on the direction of industry healthy and enterprise steady development, enhancing mutual trust and win-win cooperation, he also hope that cement enterprise can move towards high level manufacturing, intelligent manufacturing and green manufacturing by taking the road of high quality development under the leadership of China Cement Association.

Finally, all participants communicated and discussed the Summit Consensus and Action Plan of 2019 C12+3 which was drafted by China Cement Association, meanwhile, they reached a consensus on three aspects of industry development.
